Life time estimation

VINATech R&D Center
Development 1 Team

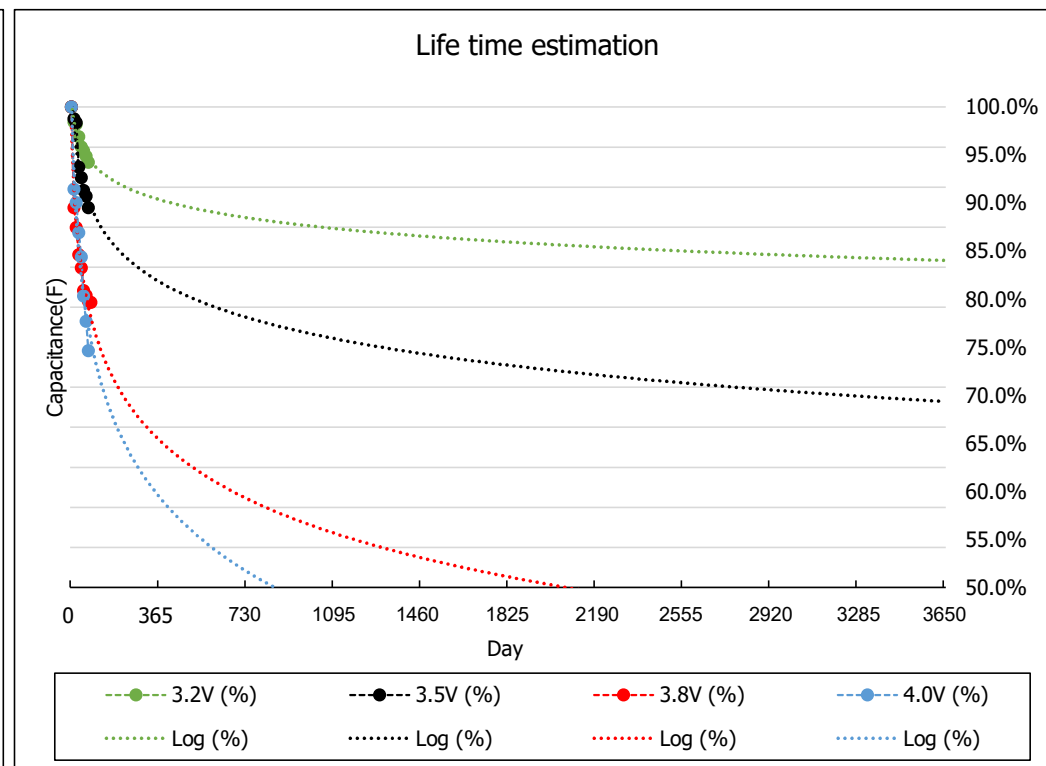

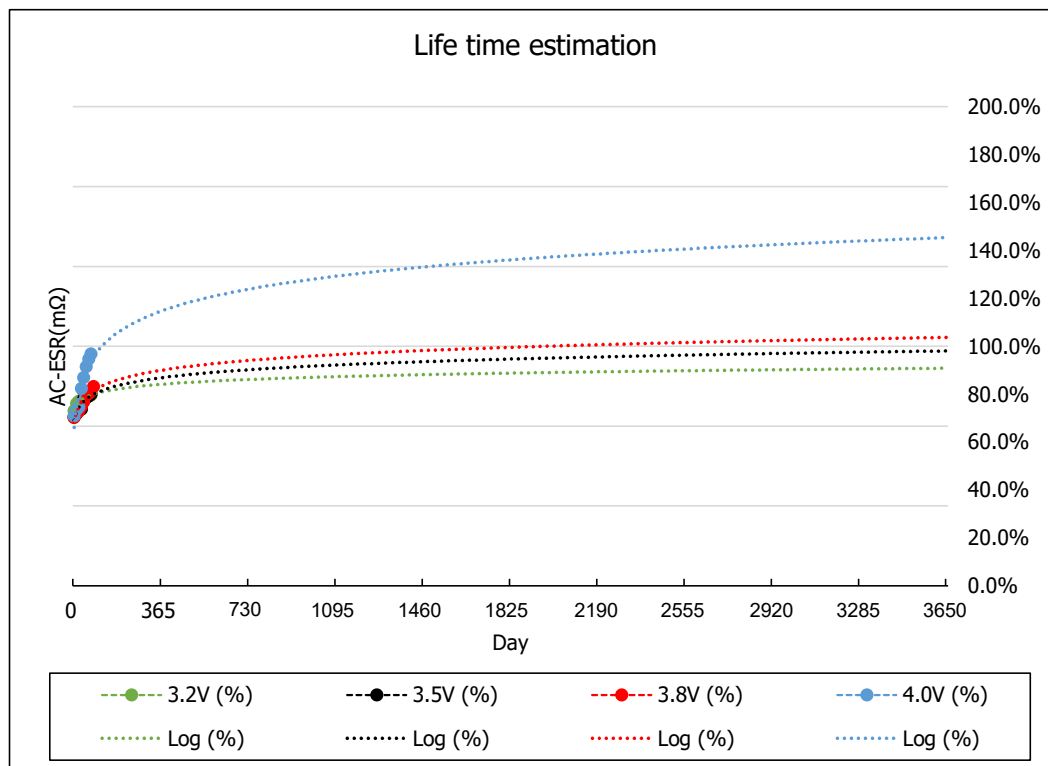

Confidential

• Life time estimation _ Voltage

• Test Conditions

Applied Voltage 3.2V to 4.0V

Temperature 70deg.C

■ About this document

- The data described in this document is NOT guaranteed. Please refer as a reference value.

■ About the estimation results

- The estimation result means the average behavior. In actual use, products may be a different from the average behavior.
